

Operating procedure

Fetco coffee brewer

Specifications

Number of cups:

Full batch: 100 cups

Half batch: 50 cups

Quantity of coffee:

Full batch: 500 grams

(5 large packs or 10 small packs)

Half batch: 250 grams

(2.5 large packs or 5 small packs)

Brewing time:

Full batch: 5 – 5.5 min.

Half batch: 2.5 – 2.75 min.

(Allow an additional 2 to 4 minutes for the coffee to finish dripping)

Coffee filter size: 20" x 8"

The coffee filters are provided by the Port of Montreal. Please contact the logistics agent on site.

- 1) Make sure that the coffee distributors are empty.
- 2) Turn the Power switch to ON. The machine will take a few minutes to warm up. When the READY light comes on, the machine is ready to brew.
- 3) Put a paper coffee filter in each basket to be used.
- 4) Pour the appropriate amount of coffee into the paper coffee filter.
- 5) Slide the brew basket back into place between the brewer's rails. Make sure the latch is on the outside of the basket.
- 6) Select Full batch or Half batch mode.
- 7) Start a brew cycle by turning the brew latch to the Brew position.

To interrupt a brew cycle, turn the Brew latch down a second time. This will reset the brewer.

If you have any questions, contact the logistics agent on site.
